EXCELLENCE DETAILS

DESIGN THAT CEASES TO BE
FORM AND BECOMES EMOTION

WELCOME TO THE ERA OF MULTISENSORY WELLBEING

where acoustic science meets Italian design
excellence to transform every treatment into a
profound experience.

The Vibbro Chair is not just a chair, but a powerful
tool designed to elevate treatments to new levels of
effectiveness and prestige. A luxury chair specifically
designed for the Hair Wellness sector that integrates
vibrational technology and music.

Music and associated vibrations that, through the Vibbro Music app, diffuse sound that is converted into mechanical harmonic vibrations that travel throughout the body.

The spine acts as a conductor: the vibrations are transmitted from the chair along the spine to the scalp, regenerating the mind and body in an immediate and lasting way.

Wearing the earphones, you begin an emotional journey where music and vibration are perfectly synchronised.

REGENERATING VIBRATIONS

THE BEATING HEART OF THE VIBBRO CHAIR IS THE VIBBRO STRATEGY, A METHOD THAT CONSIDERS THE HUMAN BODY AS A COMPLEX ACOUSTIC RESONATOR.

STYLE AND TECHNOLOGY FOR A UNIQUE BEAUTY RITUAL.

The luxury of total customisation; choose the perfect outfit for your salon.

With Luxury Spa Bed, creativity knows no bounds: from the laminates of the structure to the upholstery, every colour detail is in your hands.

But true beauty lies within: three silent electric motors work in harmony to adjust the height, backrest and leg rest, offering every client a position of pure relaxation while ensuring perfect ergonomics.

VIBBRO CHAIR

VibroMusic is a state of the art technology that delivers vibrational frequencies and music for well-being.

The vibrations are transmitted from the VibbroChair, perfectly synchronised with specially designed audio tracks.

Hair growth and density are stimulated through specific frequencies that activate hair follicle cells, promoting thicker and healthier hair.

The therapeutic action of the vibrations is effective in reducing the symptoms of seborrhoeic dermatitis, itching and redness.

VIBBRO CHAIR

OPTIONAL

The integration of Vibbro Academy rituals into beauty treatments represents the convergence of vibro-acoustic technology and professional manual techniques, transforming a standard service into an advanced, multi-sensory wellness protocol. Using the dedicated app, the practitioner selects the ritual best suited to the treatment's objective, choosing from the 5 vibrational universes.

The real added value lies in enhancing aesthetic results.

Increased Skin Permeability: The acoustic vibrations of the rituals help to break down the skin barrier, allowing active ingredients to be absorbed more quickly and deeply.

Tissue Preparation: The vibrations promote muscle relaxation and make the body much more receptive to manipulation and massage.

Microcirculation: The rituals activate peripheral microcirculation, improving tissue oxygenation during the treatment.

VIBBRO CHAIR

VIBBRO MUSIC

On the loungers equipped with Vibbro Music technology, the boundary between sound and body dissolves, giving rise to a total Vibbro Experience.

This technology is not merely sound reproduction, but a ritual capable of acting as a powerful remedy for your physical, mental and emotional wellbeing. Through cutting-edge software and algorithms, music is broken down into its four fundamental elements: Harmony, Rhythm, Timbre and Vibration;

these are then transferred directly to the body.

At the heart of this experience lie the 5 vibrational universes designed to address specific issues:

Green universe:

Dedicated to beauty and purification; it acts on cellulite, drainage and insomnia, and has a powerful anti-ageing effect.

Red universe:

To restore vitality, promote muscle relaxation and specifically target the lungs, kidneys and back.

Orange universe:

Addresses issues such as strains, cramps and injuries; soothes the lower back and regulates menstrual tension.

Blue universe:

Dedicated to the neck, cervical spine and shoulders; eases stress-related tension and stimulates liver cleansing.

Yellow universe:

Promotes bone balance, muscle reawakening and foot circulation, proving effective in alleviating migraines and headaches.

The body responds to specific vibrations, falling into perfect harmony with the rhythm; the mind calms, allowing itself to be guided by harmonies composed by over 6,000 artists; The soul vibrates, enveloped by a tone that transforms the massage or treatment into a profound journey.

By selecting the most suitable vibration, the massage table ceases to be an object and becomes an instrument of complete wellbeing, delivering incredible results and profound regeneration.

V-MIST

V-Mist is an ultrasonic steamer designed to enhance the effectiveness of all hair treatments.

The ultrasonic technology generates a fine mist that gently opens the cuticles, allowing treatments and colour to penetrate deeper and ensure longer-lasting results.

The ozone function sterilises the scalp and helps remove the odours of chemical products, transforming the treatment into a true sanitising and purifying protocol.

V-MIST
cod. 7297

The dual dispensing system allows you to work on two side-by-side washes simultaneously, optimising both time and the salon's productivity. Thanks to V-Mist, services such as hair restoration, detox treatments, premium colouring and anti-ageing hair rituals gain both technical and perceived value, making them perfect for a luxury positioning.

LUXURY SPA BED BECAUSE WELLNESS IS NOT JUST A SERVICE; IT IS AN EMOTION THAT LAST.

Leave the outside world behind and immerse yourself in an experience where engineering meets pure emotion.

The Luxury Spa Bed is designed to transform every massage into a ritual of sensory rebirth. Without the bulk of a washbasin, the design becomes even more minimalist, focusing solely on relaxation.

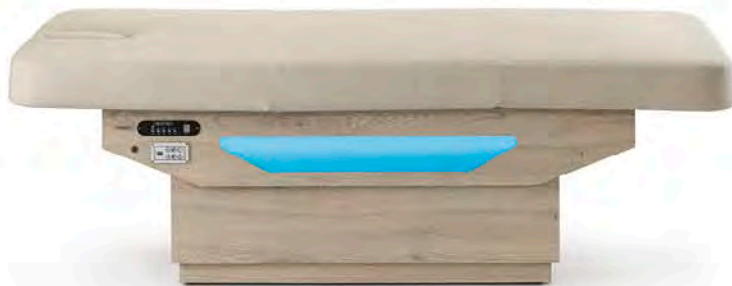

Experience the freedom of a tailor-made position. Thanks to three electric motors, you can precisely adjust the height, backrest angle and leg rest.

Unlike standard models with a fixed backrest, this version allows you to sculpt comfort, welcoming every guest into an impeccably ergonomic embrace.
